## PROFESSIONAL SUMMARY

Frontend Developer with 2+ years of experience building responsive, interactive web applications with React.js, JavaScript (ES6+), and RESTful APIs. Turns customer needs and Figma UI/UX designs into pixel-perfect, production-ready interfaces, and builds reusable component libraries that keep code clean and scalable. Works closely with designers, product managers, and backend developers in Agile teams, and has delivered live projects across real estate, logistics, government, and education platforms. Strong problem solver focused on performance and user experience across all devices.

## TECHNICAL SKILLS

- **Languages:** HTML5, CSS3, JavaScript (ES6+)
- **Frontend:** Vue.Js, React.js, React Hooks, React Router, Redux, Next.js, Ant Design, Bootstrap
- **Backend:** Node.js, Express.js, RESTful APIs
- **CMS:** WordPress, Joomla
- **Tools:** Git, GitHub, Postman, Jira, Figma
- **Practices:** Agile/Scrum, Responsive Web Design, Cross-Browser Compatibility, Mobile-First Development

## PROFESSIONAL EXPERIENCE

**Frontend Developer** | *Webwide IT Solutions LLP, Pune* **Mar 2024 – Present**

- Engineer and maintain responsive, cross-browser web applications using React.js, HTML5, CSS3, and Bootstrap, ensuring consistent performance across desktop, tablet, and mobile devices.
- Architect reusable React component libraries that reduce duplicate UI code across multiple concurrent client projects and accelerate feature delivery timelines.
- Translate Figma UI/UX designs into pixel-perfect, production-ready interfaces and integrate RESTful APIs to power dynamic, data-driven functionality.
- Customize and deploy CMS-based websites on WordPress and Joomla, leveraging Postman to test, validate, and debug API endpoints prior to release.
- Collaborate with cross-functional teams in Agile sprints, using Git, GitHub, and Jira to track progress and uphold clean-code standards.

**Frontend Developer — Intern** | *Clever Ground Technology Pvt. Ltd, Pune* **May 2023 – Aug 2023**

- Designed and built reusable UI components using React.js, JSX, React Hooks, React Router, and Ant Design for internal and client-facing applications.
- Integrated RESTful APIs to enable dynamic frontend functionality and used Postman for endpoint testing and debugging.
- Partnered with senior developers in an Agile environment, contributing to design discussions and adopting industry best practices in modern frontend development.

## KEY PROJECTS

**Handa Realtor — Real Estate Web Application** — handarealtor.ca/

*Tech Stack: React.js, React Hooks, React Router, Bootstrap, JavaScript, RESTful APIs*

- Delivered a responsive real estate platform enabling users to buy, rent, and sell properties through an intuitive, map-friendly interface.
- Built dynamic property-listing pages with advanced search and multi-filter functionality (location, price, property type) to speed up property discovery.
- Integrated RESTful APIs for real-time property data and developed reusable React components to improve scalability and long-term maintainability.

- Optimized the application for mobile responsiveness, cross-browser compatibility, and page performance.

**Skilled Movers — Material Transfer & Relocation Platform** — skilledmovers.com.au/

*Tech Stack: React.js, React Hooks, React Router, Bootstrap, JavaScript, RESTful APIs*

- Designed and developed a responsive web application for a material transfer and relocation service provider using a mobile-first approach.
- Built reusable UI components and integrated RESTful APIs to power service booking and request workflows.
- Optimized the application for performance, accessibility, and cross-browser compatibility to deliver a consistent experience across devices.

**Bhurr Cab Rentals** — www.bhurr.co.in/

*Tech Stack: HTML5, CSS3, JavaScript, Bootstrap*

- Designed and developed responsive pages, including Packages, Contact Us, and service sections, with a focus on clean UI and intuitive navigation.
- Ensured cross-browser compatibility and mobile-friendly layouts to enhance overall user experience.

**PMRDA CMS Website** — www.pmrda.gov.in/

*Tech Stack: WordPress, HTML, CSS, JavaScript*

- Developed and customized multiple pages for the PMRDA government website using WordPress CMS.
- Modified themes and layouts per project requirements while ensuring responsive design, improved navigation, and cross-browser compatibility.

**CG-Portal — NAAC Reporting & Data Capture Module** — product.cleverground.com/#/login

*Tech Stack: React.js, JavaScript (ES6+), Ant Design, RESTful APIs*

- Built a React.js data-management portal to streamline NAAC accreditation reporting for higher-education institutions.
- Developed responsive, form-driven UIs for efficient data capture and integrated RESTful APIs for seamless communication with backend services.
- Supported integration with existing institutional systems, including the Learning Management System (LMS), improving data accuracy and reducing manual reporting effort.

## EDUCATION

**Master of Computer Application (MCA) —**
**Suryadatta Institute of Business Management & Technology** 2023
*Percentage: 82.64%*

**Bachelor of Computer Application (BCA) —**
**P. Jog College of Science and Commerce** 2021
*Percentage: 77%*

## CERTIFICATIONS & TRAINING

- Full Stack Web Development Bootcamp — Simplilearn
- Next.js — Simplilearn

## ADDITIONAL INFORMATION

- Languages: English, Hindi, Marathi
- Strong team player with excellent communication, collaboration, and problem-solving skills
